**We can finish any product in
traditional, specialist or
liquid metal paint.
Offering the ultimate choice.**

At Revelare, we shape liquid metal into artistic surfaces that unite nature, craft, and design. The finishes featured in this book are inspired by the elemental forces that shape our world - glaciers, rivers, stone, and time - translated into patterns alive with depth, movement, and story.

This collection is guided by themes of nature and wellbeing. Wellness in design is rooted in open spaces, natural light, and a strong connection to the natural world. As architect and ecologist Dr. Ken Yeang observed, healthy spaces must function, meet parameters, be beautiful, and above all, make people happy. This philosophy reflects why we look to nature as both inspiration and guide. The place where art, life, and wellbeing intersect.

Together, these ranges highlight the versatility of our finishes as both material and medium, inviting designers, architects, and creators surfaces that enrich spaces not only aesthetically but emotionally. This is not a definitive list of what we can achieve; we welcome innovation, new ideas, and the challenge of bringing fresh visions into reality.

"We must make people happy"
Dr Ken Yeang

BY ANDREA MARINO

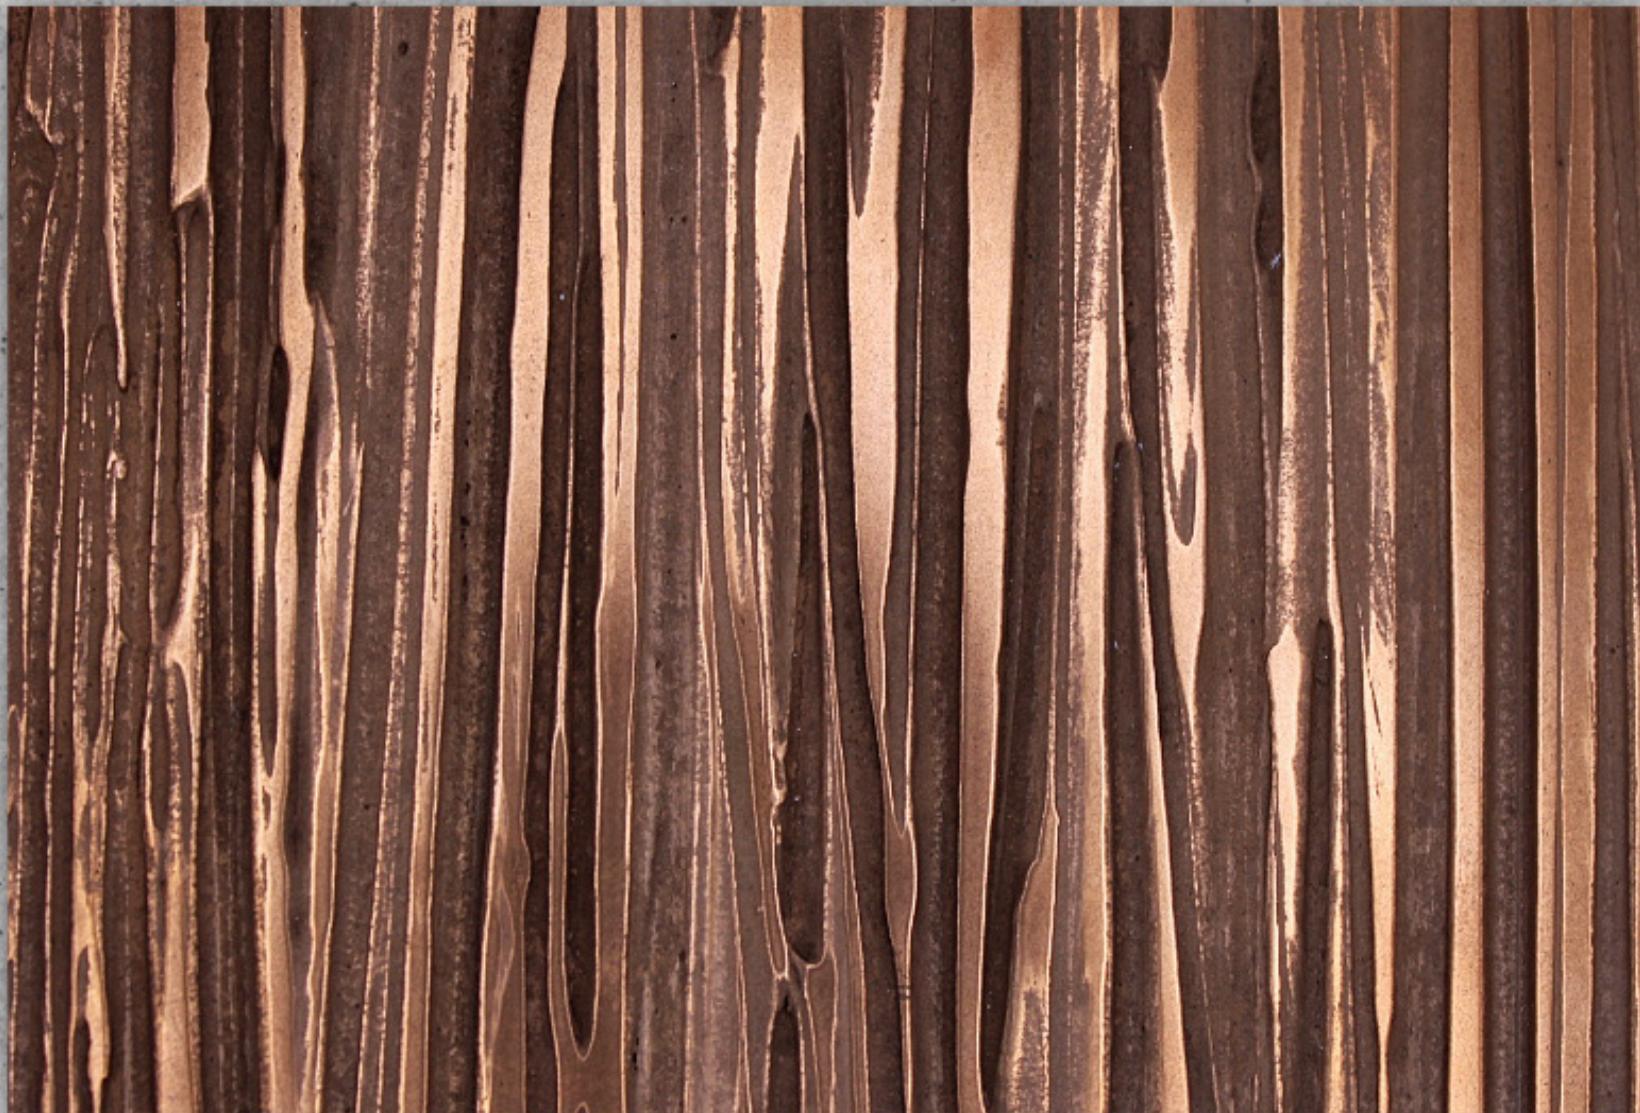

EARTH PATTERNS RANGE

Grounding finishes shaped by the raw textures of natural landscapes, evoking stability, balance, and connection to place.

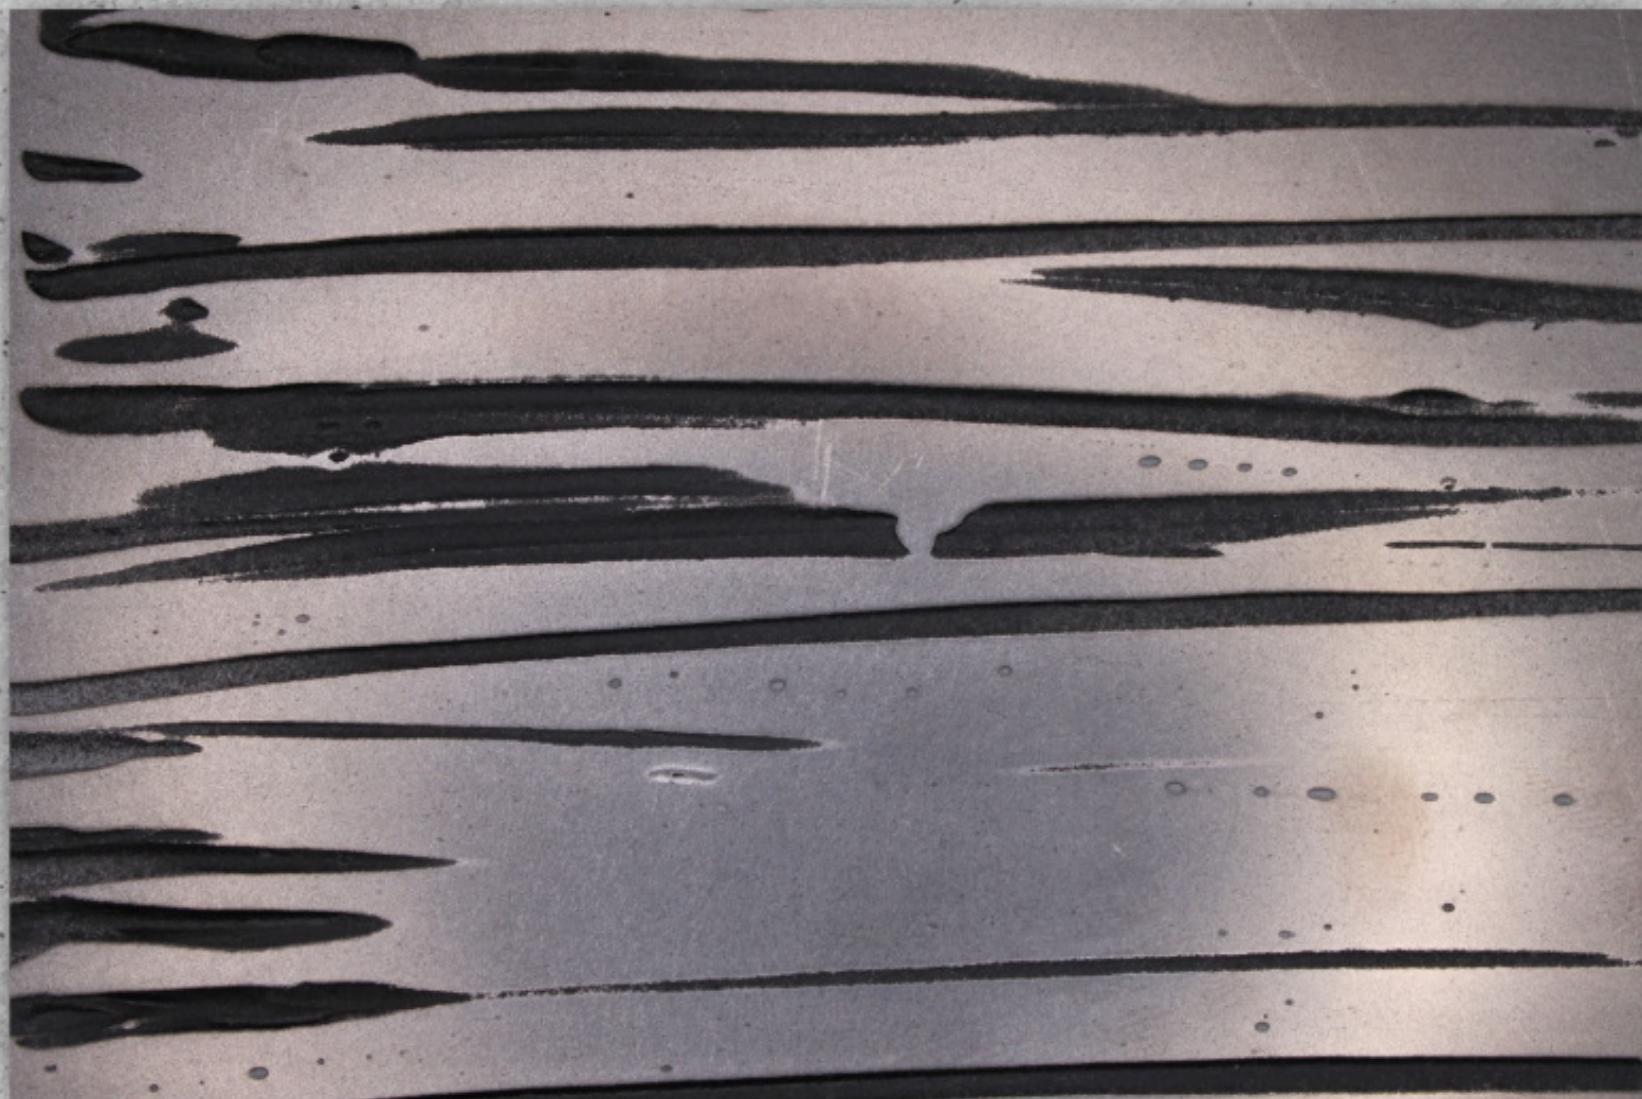

[r]

Moraine Bronze

Formed from the glacial debris left behind by retreating ice, moraines embody resilience and time. Moraine Bronze channels this grounding strength, bringing stability and a sense of permanence that supports calm and rooted in interior spaces.

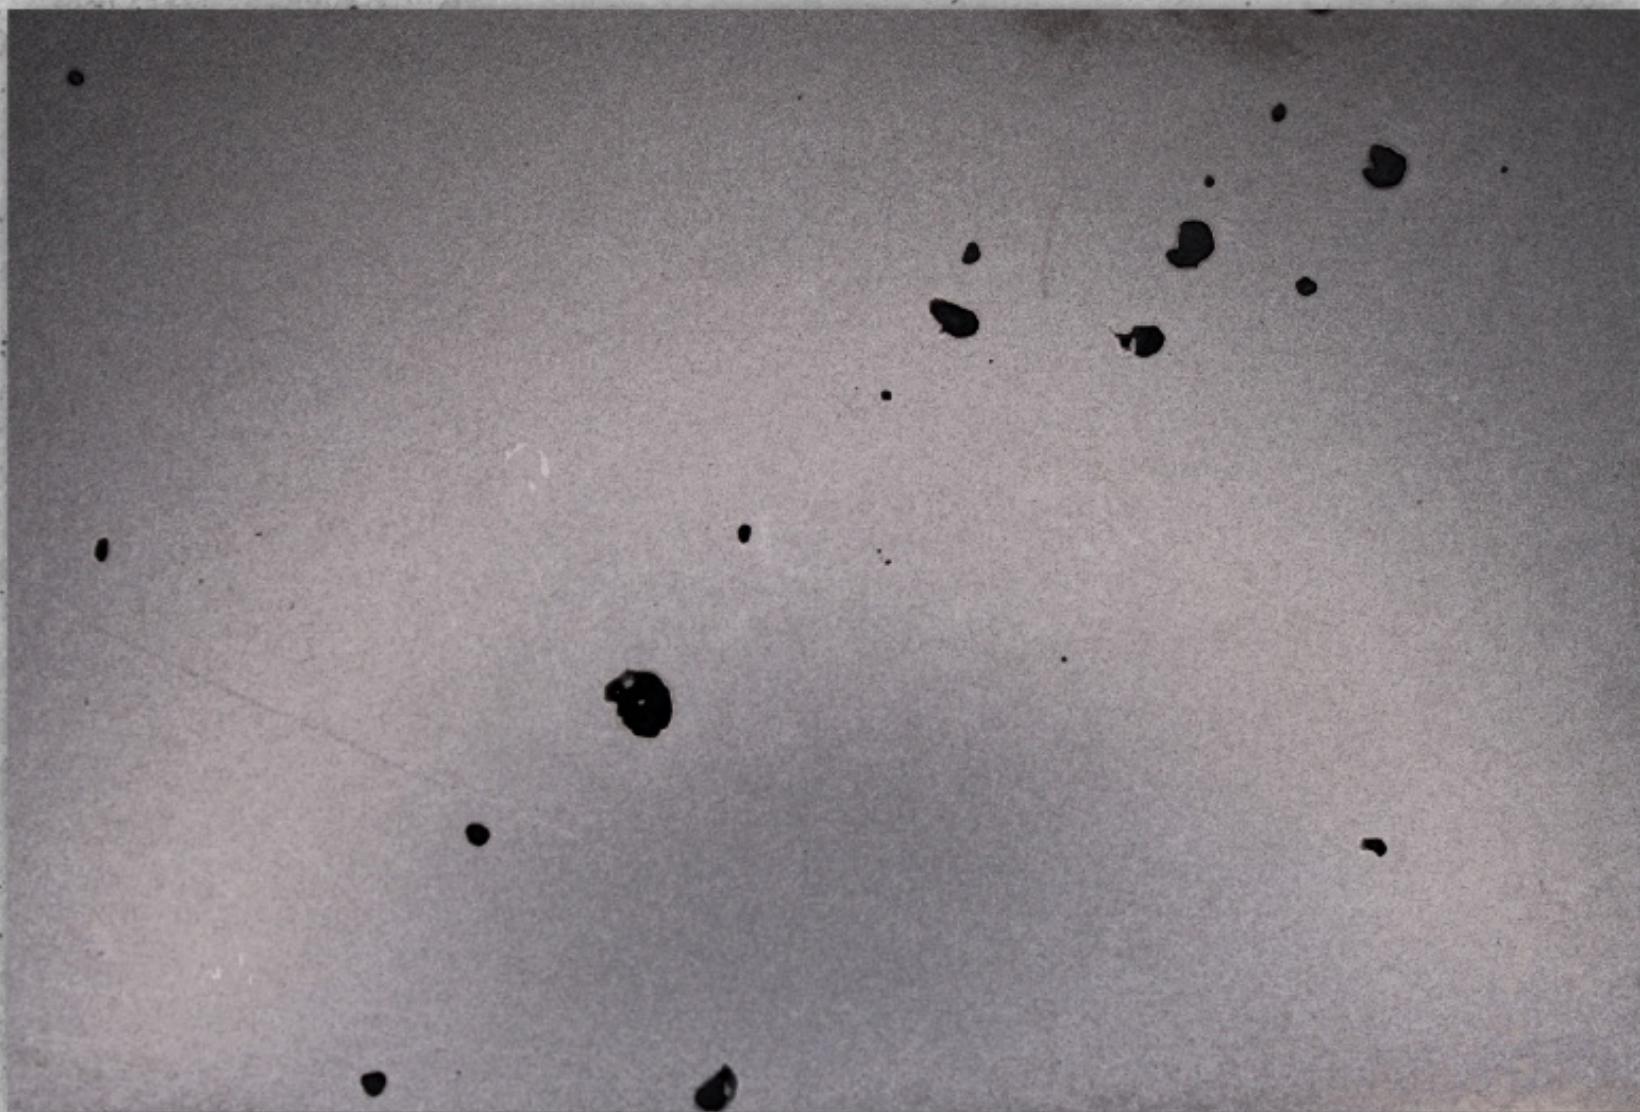

Moraine Aluminium

Inspired by the cool clarity of glacial landscapes, Moraine Aluminium reflects the quiet layering of ice and stone. Its sleek silver tones encourage balance and composure, offering interiors a tranquil counterpoint to warmer finishes.

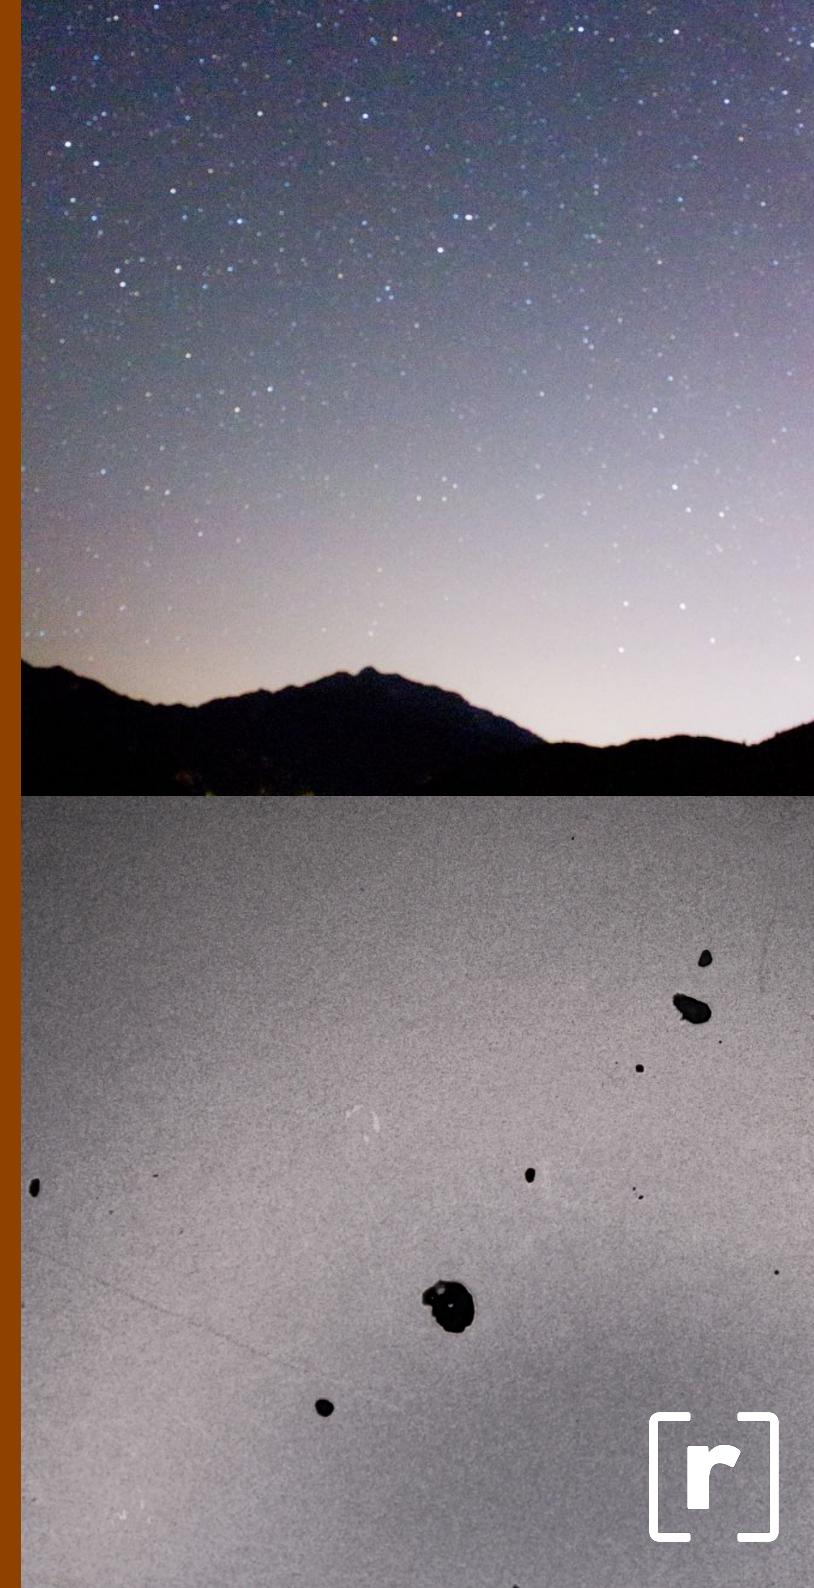

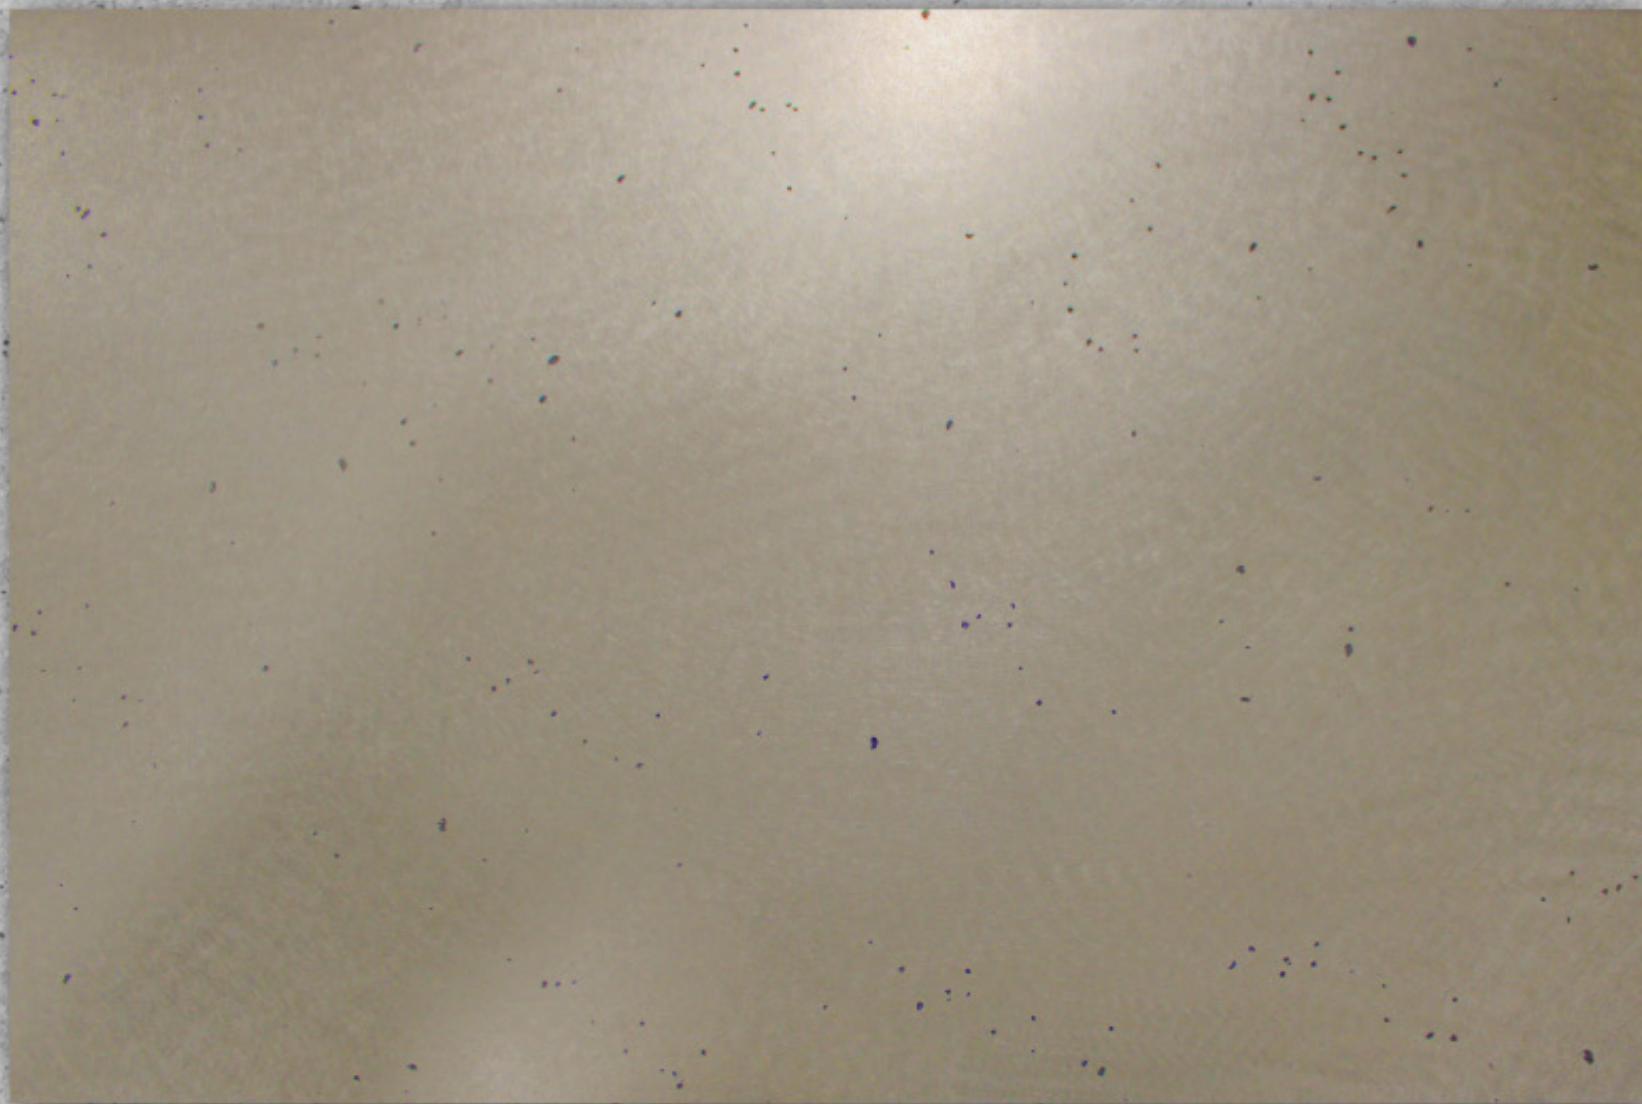

[r]

Fleck Aluminium

Mirroring sunlight dancing across water or frost catching on stone or the stars in the sky, Fleck Aluminium introduces lively glints that lift mood without overpowering. It invites playful curiosity while maintaining a refined simplicity that soothes the eye.

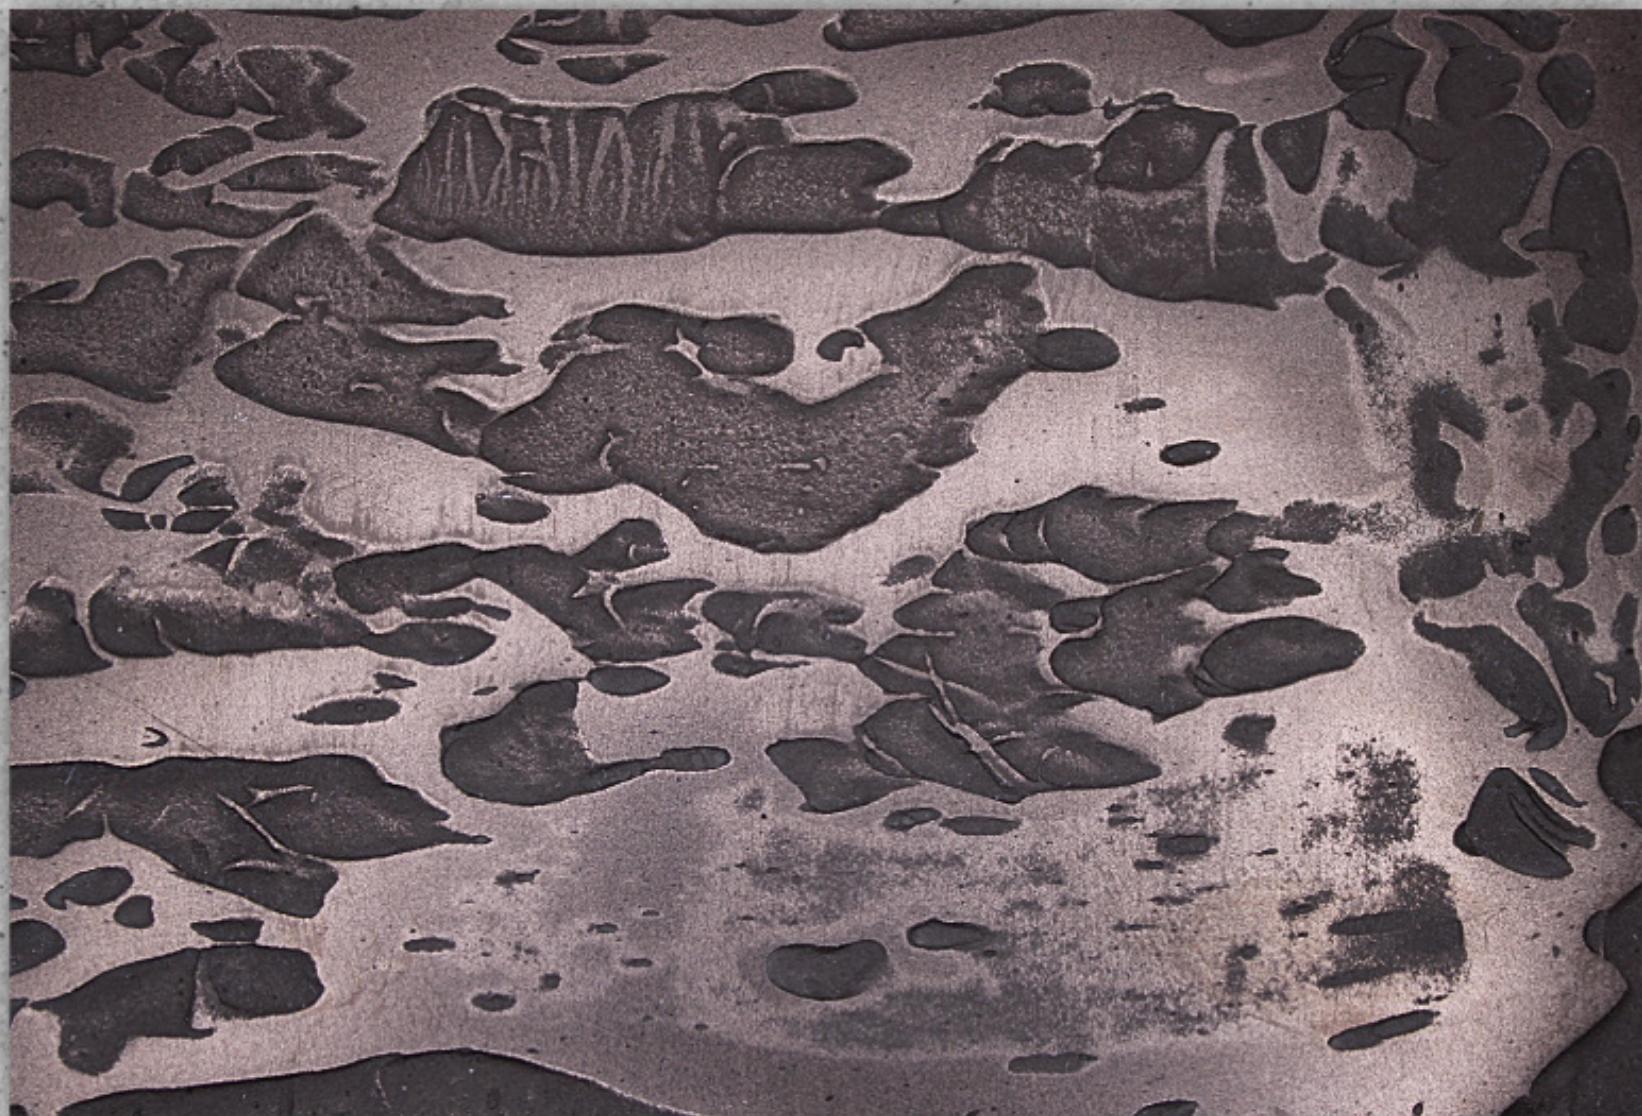

Fleck Brass

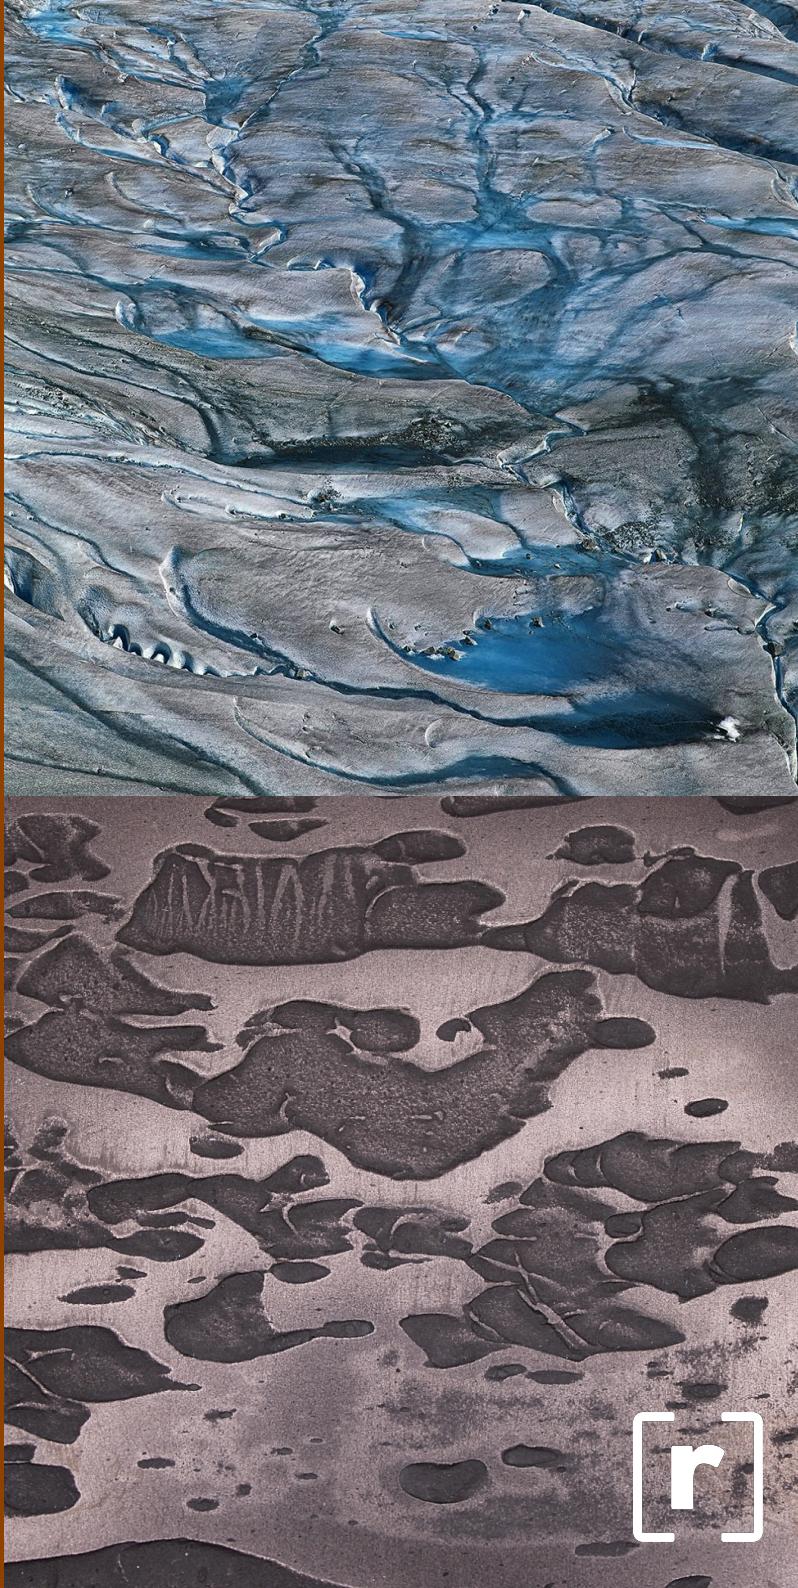

Drawing from the sparkle of dew on grasses or golden seeds scattered by the wind, Fleck Brass carries warmth and light. Its subtle radiance fosters comfort and conviviality, infusing wellness through gentle illumination.

Erosion Manganese

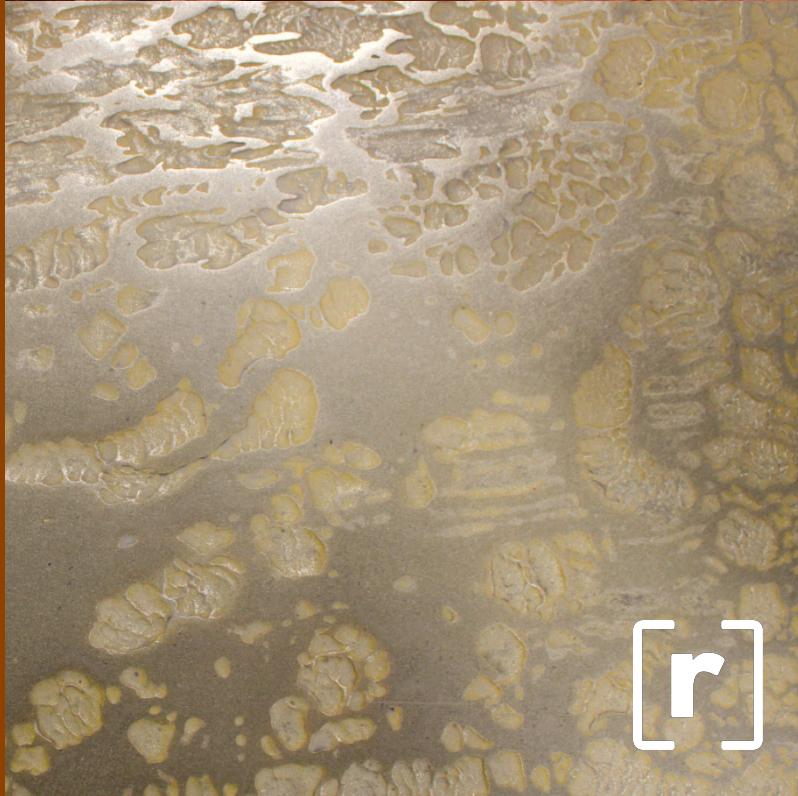

Erosion reshapes stone through water, wind, and time. Erosion Manganese captures these natural striations in earthy tones, encouraging reflection on nature's rhythms. Its layered texture evokes continuity, resilience, and a meditative sense of flow.

Erosion Gold

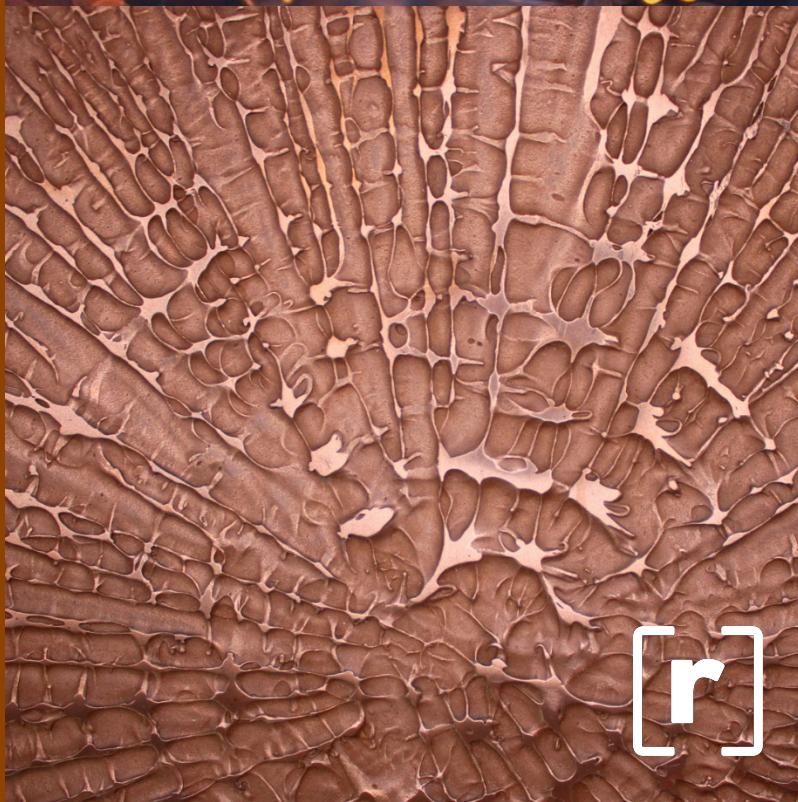

Inspired by sunlight reflecting on carved canyon walls, Erosion Gold carries movement and glow. Its golden surface recalls the healing energy of light in nature, bringing warmth, optimism, and restorative brightness to spaces.

Spider Bronze

Referencing the delicate geometry of spider webs glistening with dew, Spider Bronze suggests strength through intricacy. Its subtle, organic traces introduce visual stillness and balance, offering reassurance and harmony to interiors.

Spider Smoke

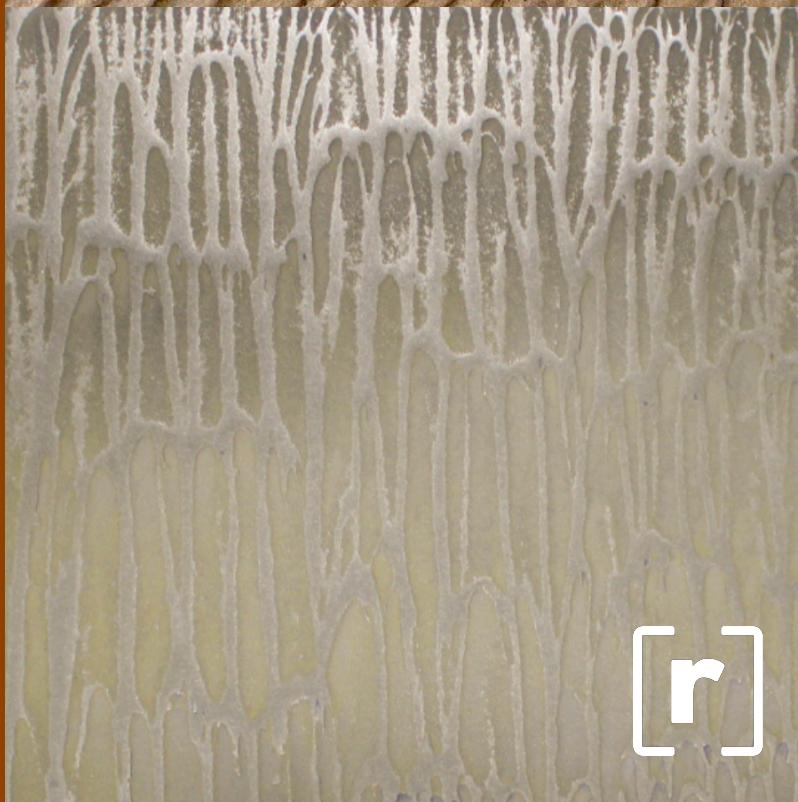

Cool and muted like morning mist caught on a spider's web,
Spider Gunsmoke evokes calm clarity and quiet strength.
Its soft, smoky tones foster reflection and composure,
creating surfaces that invite rest and focused attention.

Ripples Gold

Shaped by the wind across desert sands, Ripple Gold reflects the quiet rhythm of rippling dunes. Its golden surface embodies stillness and continuity, evoking the meditative calm of vast open landscapes and the grounding beauty of nature's elemental patterns.

Ripples Tin

Inspired by silvery reflections of rippling water under moonlight, Ripples Tin creates an atmosphere of quiet coolness and calm. Its soft flow nurtures contemplation and mental clarity within designed spaces.

Forest Copper

Rich copper tones echo the textures of bark and the filtered light of woodland floors. Forest Copper offers a warm, sheltering quality, connecting interiors to the grounding presence of trees and their restorative canopy.

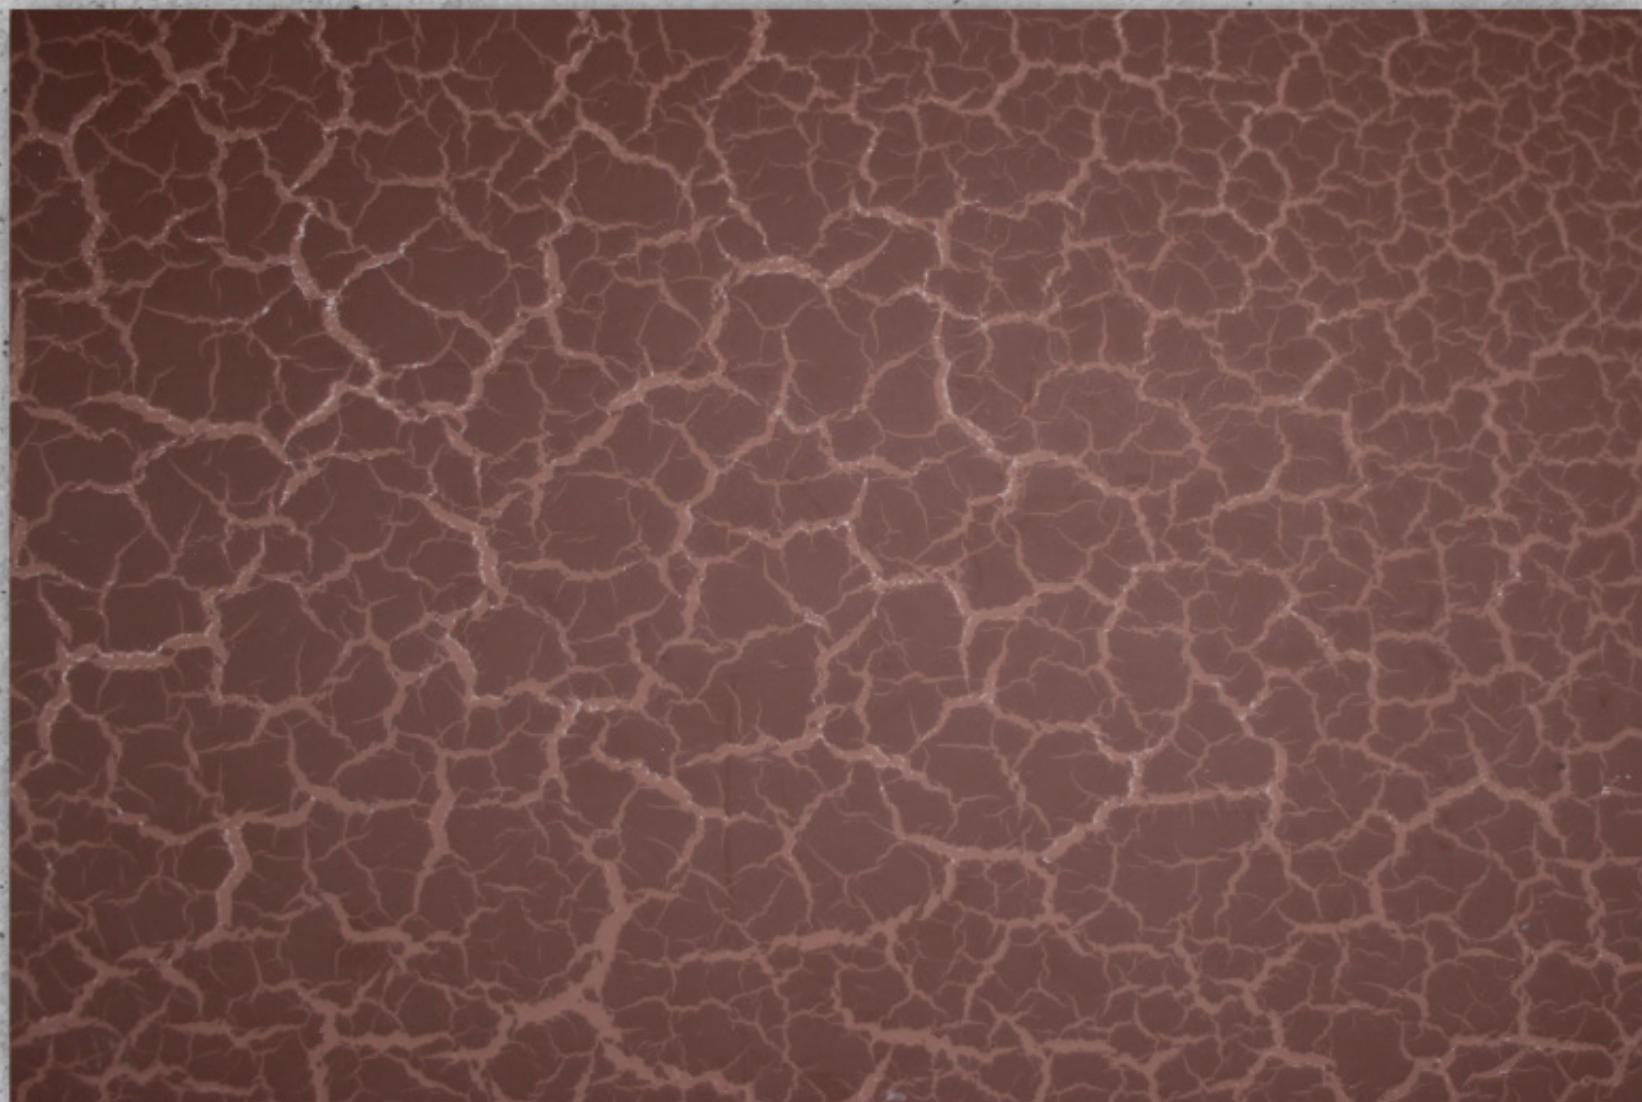

Stainless Forest

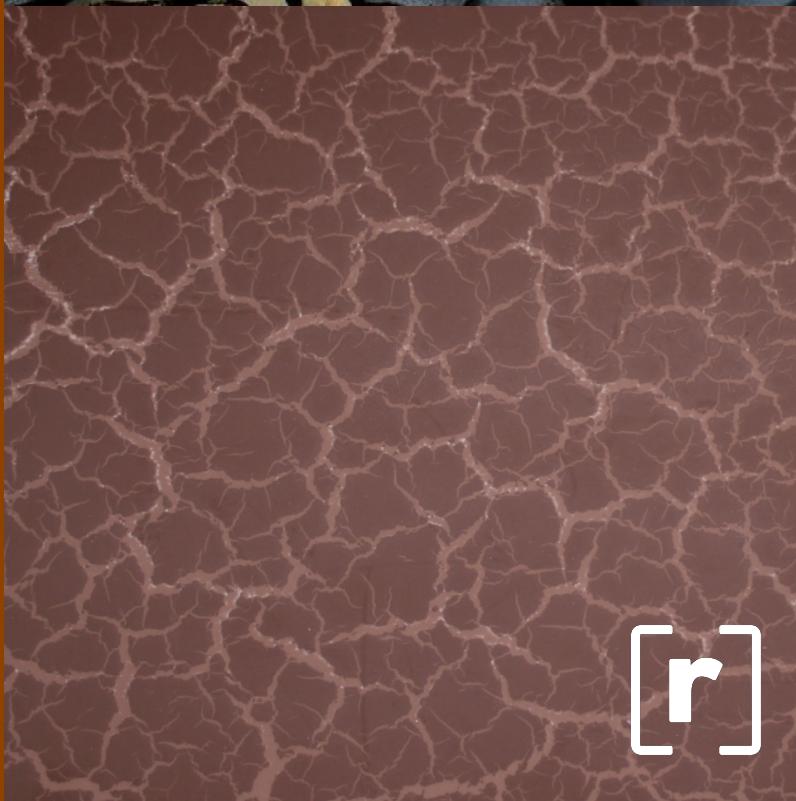

Cool, clean, and enduring, Stainless Steel Forest reflects the quiet strength of woodlands under winter light. It offers clarity and composure, grounding spaces with restorative stillness and natural balance.

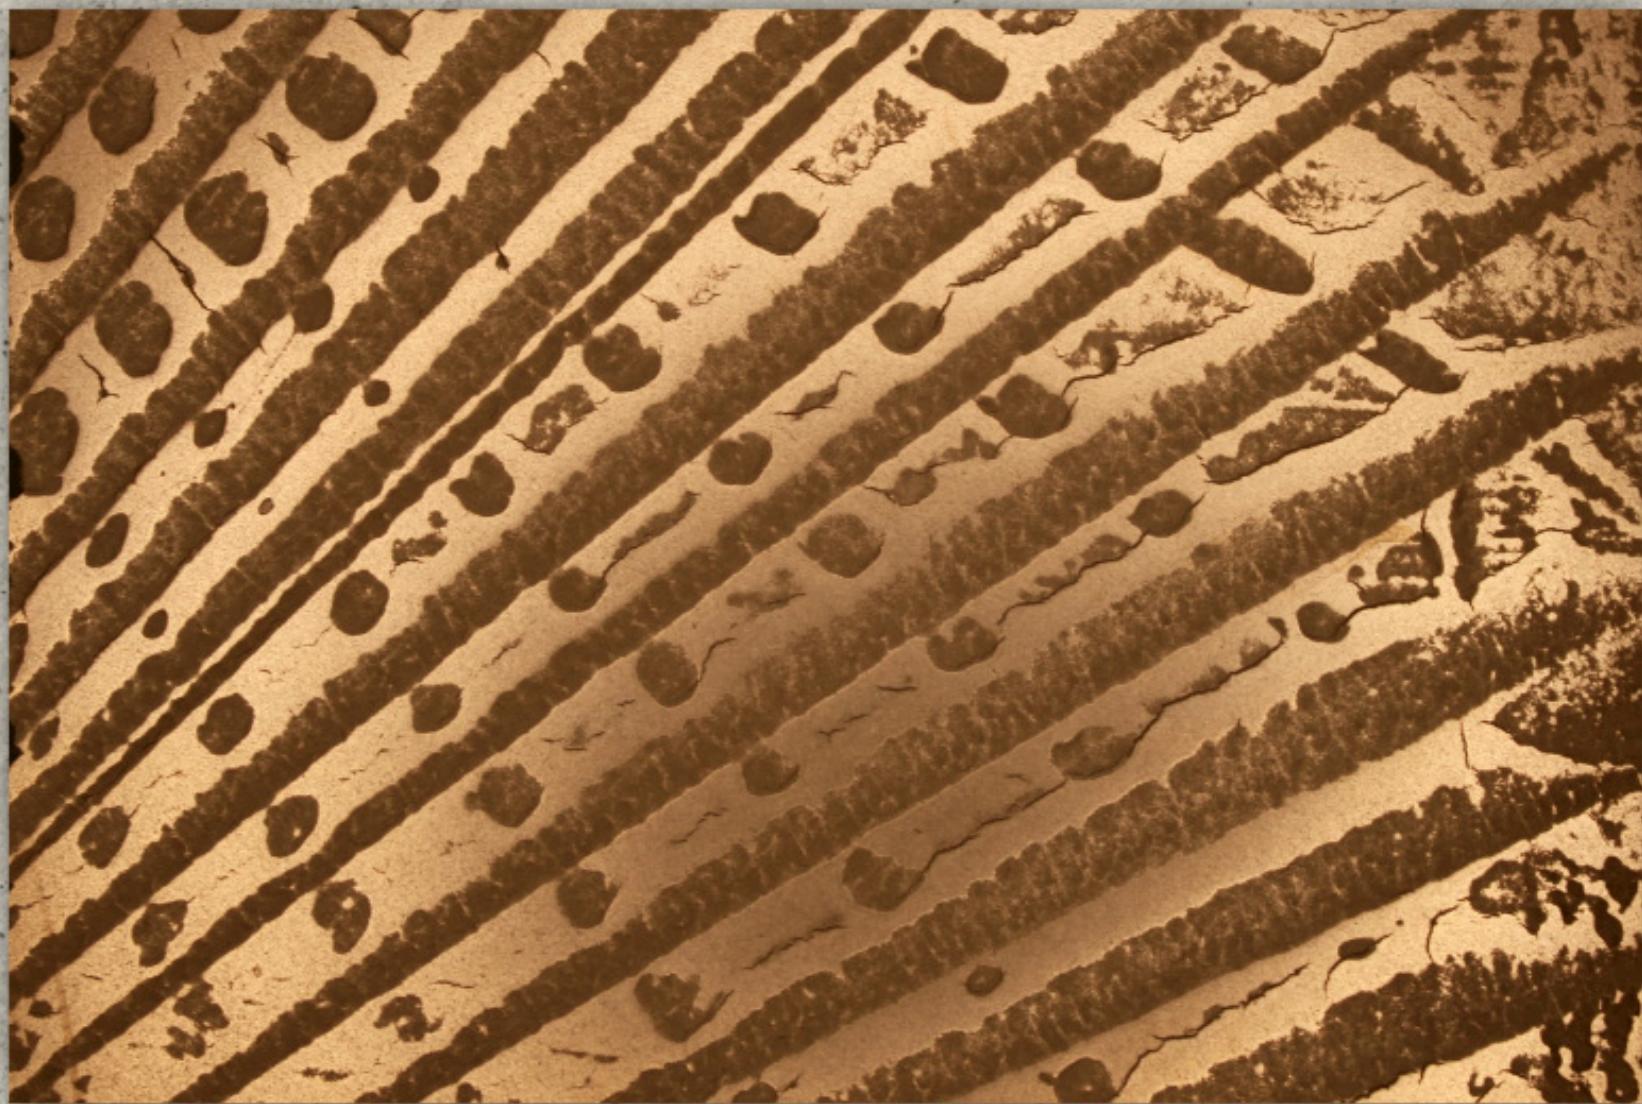

Crackle

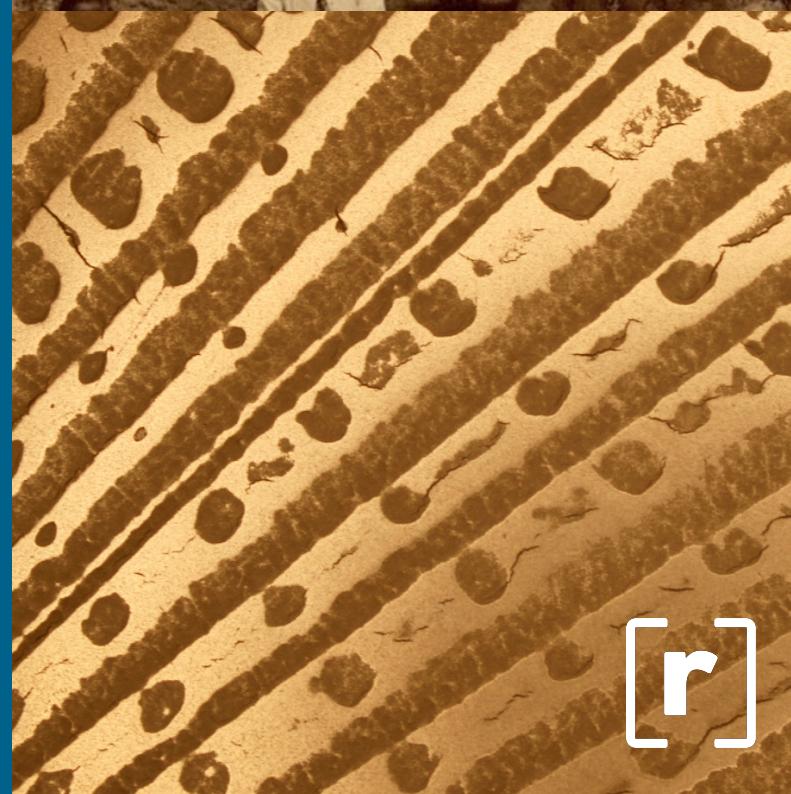

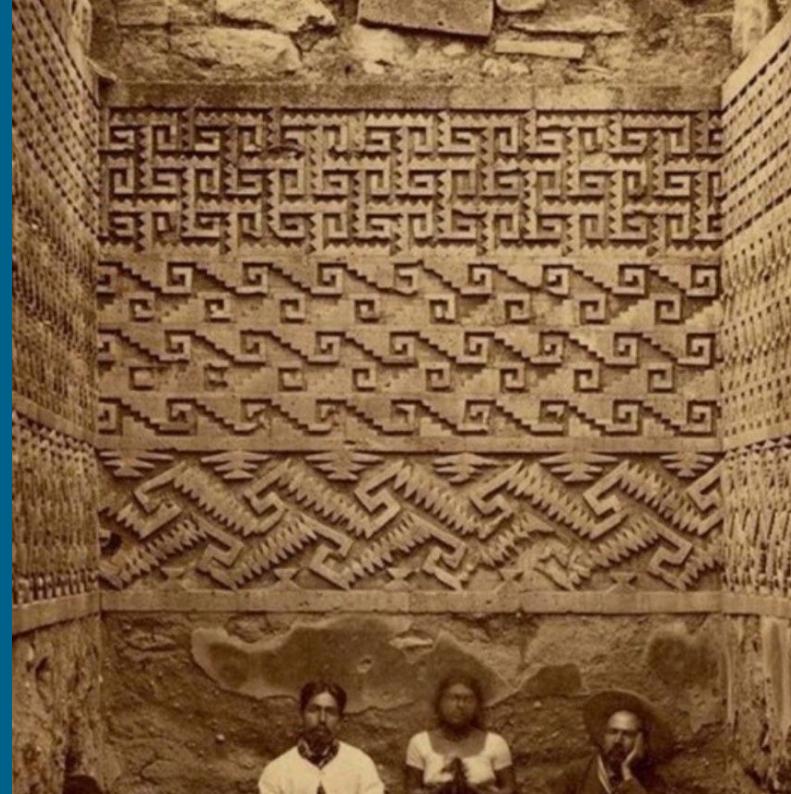

Inspired by the cracked textures of sun-baked earth and aged bark, Crackle offers tactility and depth. Its surface invites touch, bringing a natural warmth and sensory connection that enriches wellbeing indoors.

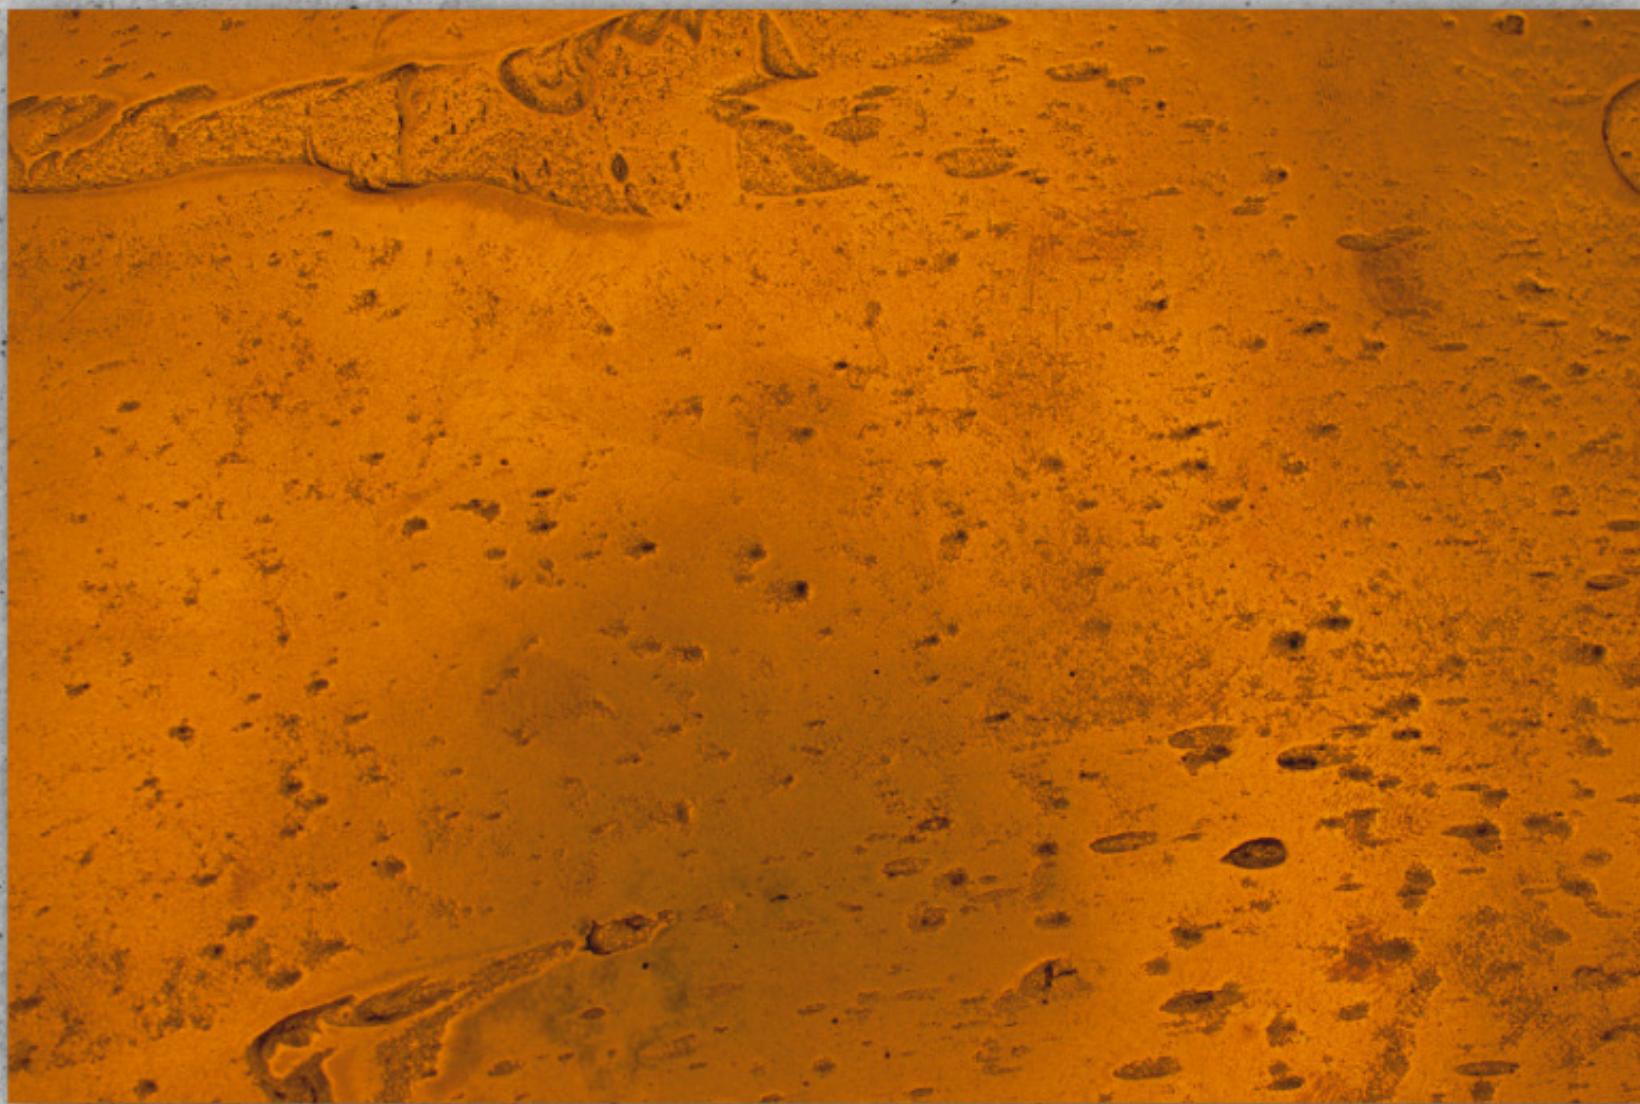

Mayan Gold

Mayan Gold honours the artistry of ancient craft. Its luminous finish conveys heritage and warmth, reminding us of human creativity and the wellbeing that comes from cultural connection.

[r]

Pitted Copper

Textured with quiet intricacy, Pitted Copper mirrors the richness of age and weathered surfaces. It offers authenticity and grounding, reminding us of beauty in imperfection and the calm of time's passage.

Rain Bronze

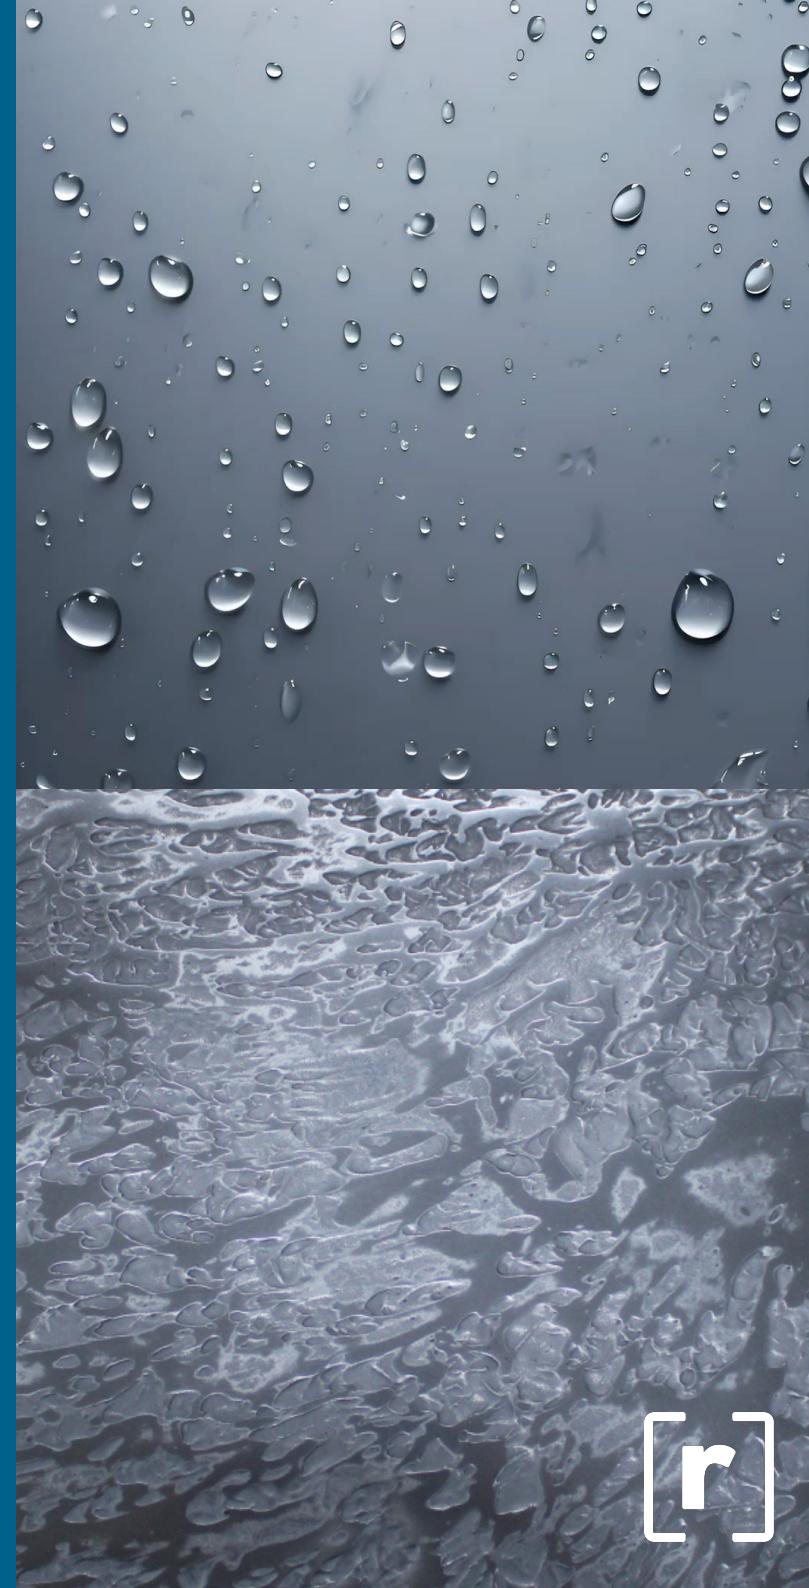

Capturing the rhythm of rainfall on earth, Rain Bronze carries a soothing linearity. Its golden-brown tones evoke calm and cleansing, offering an atmosphere of renewal and balance in spaces.

Rain White Bronze

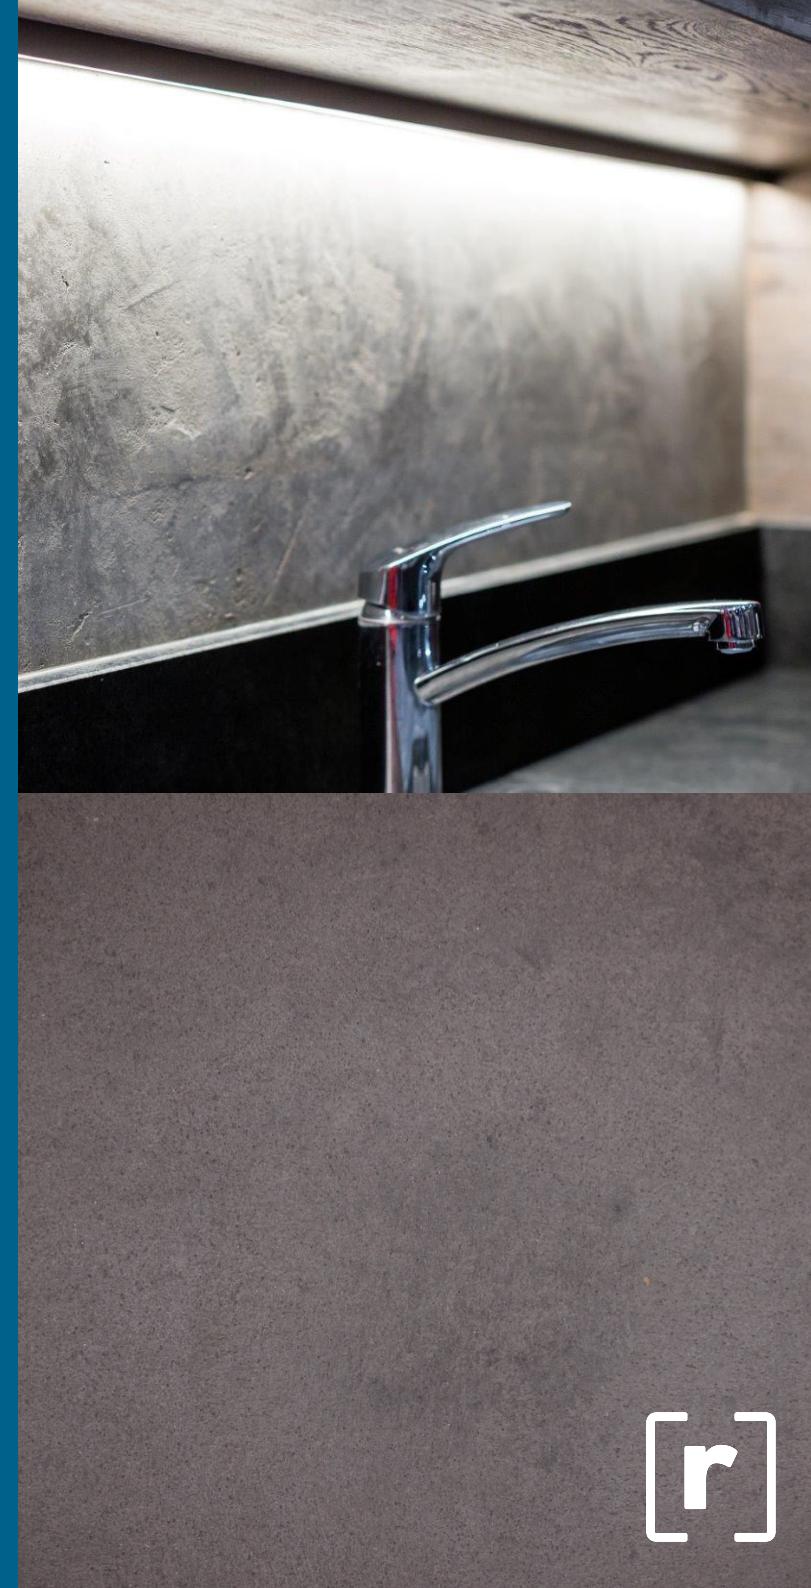

Like soft rainfall in pale light, Rain White Bronze suggests purity and quiet reflection. Its gentle striations evoke openness and serenity, encouraging restorative pauses in the built environment.

Stone Micro Cement

Mimicking the soft texture of river pebbles, this surface recalls the timeless touch of water-worn stone. Its natural tactility connects users with grounding sensations, fostering calm focus and sensory ease.

[r]

Copper Fleck Micro Cement

Inspired by flecks of light catching on flowing water, this finish introduces warmth and vitality. The copper accents create playful movement, uplifting mood while maintaining a subtle, natural balance.

CLASSIC PATTERNS RANGE

Timeless metals reimagined through polished, brushed, and patinated forms, offering clarity, elegance, and enduring harmony.

Antique Bronze

Aged like weathered statues and timeless artefacts, Antique Bronze connects past to present. Its depth and patina evoke wisdom and continuity, offering reassurance and stability to contemporary spaces.

Antique Brass

Rich golden hues suggest the gentle warmth of sunlit stone and historic craftsmanship. Antique Brass lends interiors a sense of heritage, comfort, and enduring elegance, enhancing wellbeing through familiarity.

Antique Copper

Inspired by time-worn metals shaped by air and moisture, Antique Copper exudes warmth and resilience. Its surface celebrates transformation, reminding us of nature's cycles and the beauty of ageing gracefully.

Antique Aluminum

Echoing weathered silver surfaces softened by time, Antique Aluminum carries a quiet coolness. Its understated finish promotes clarity, balance, and a tranquil sense of spaciousness.

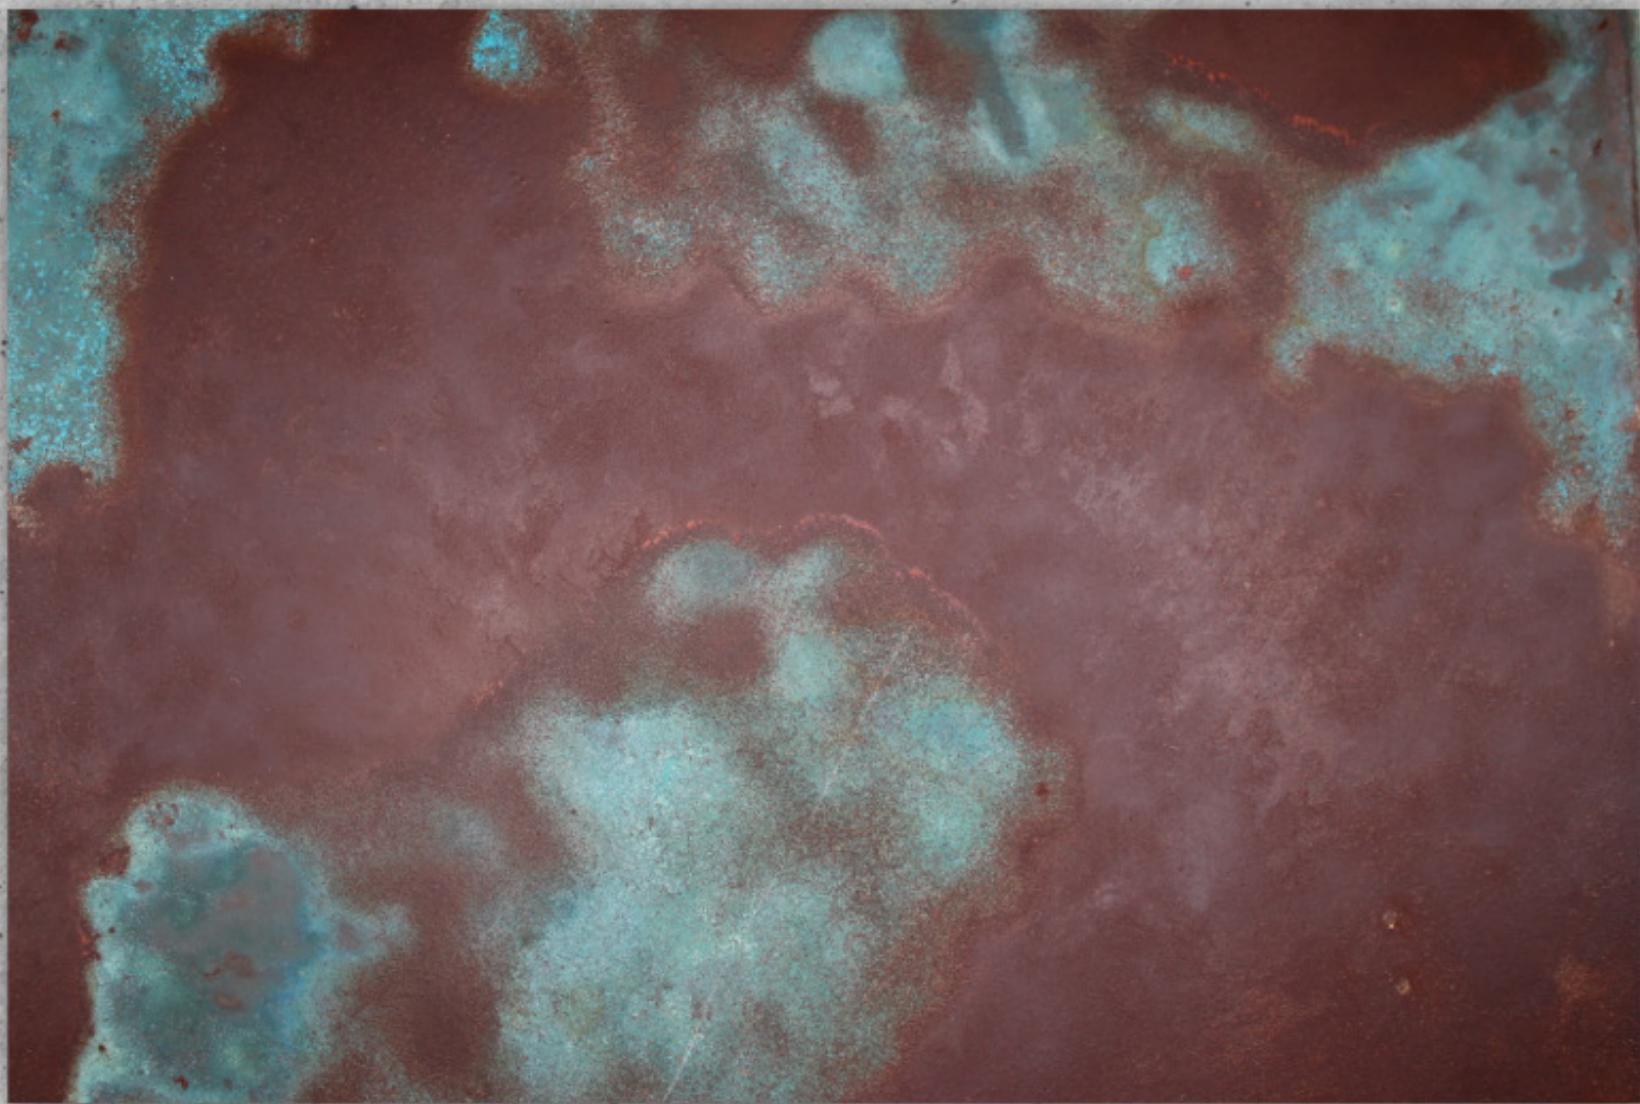

Iron Corten and Verdigris

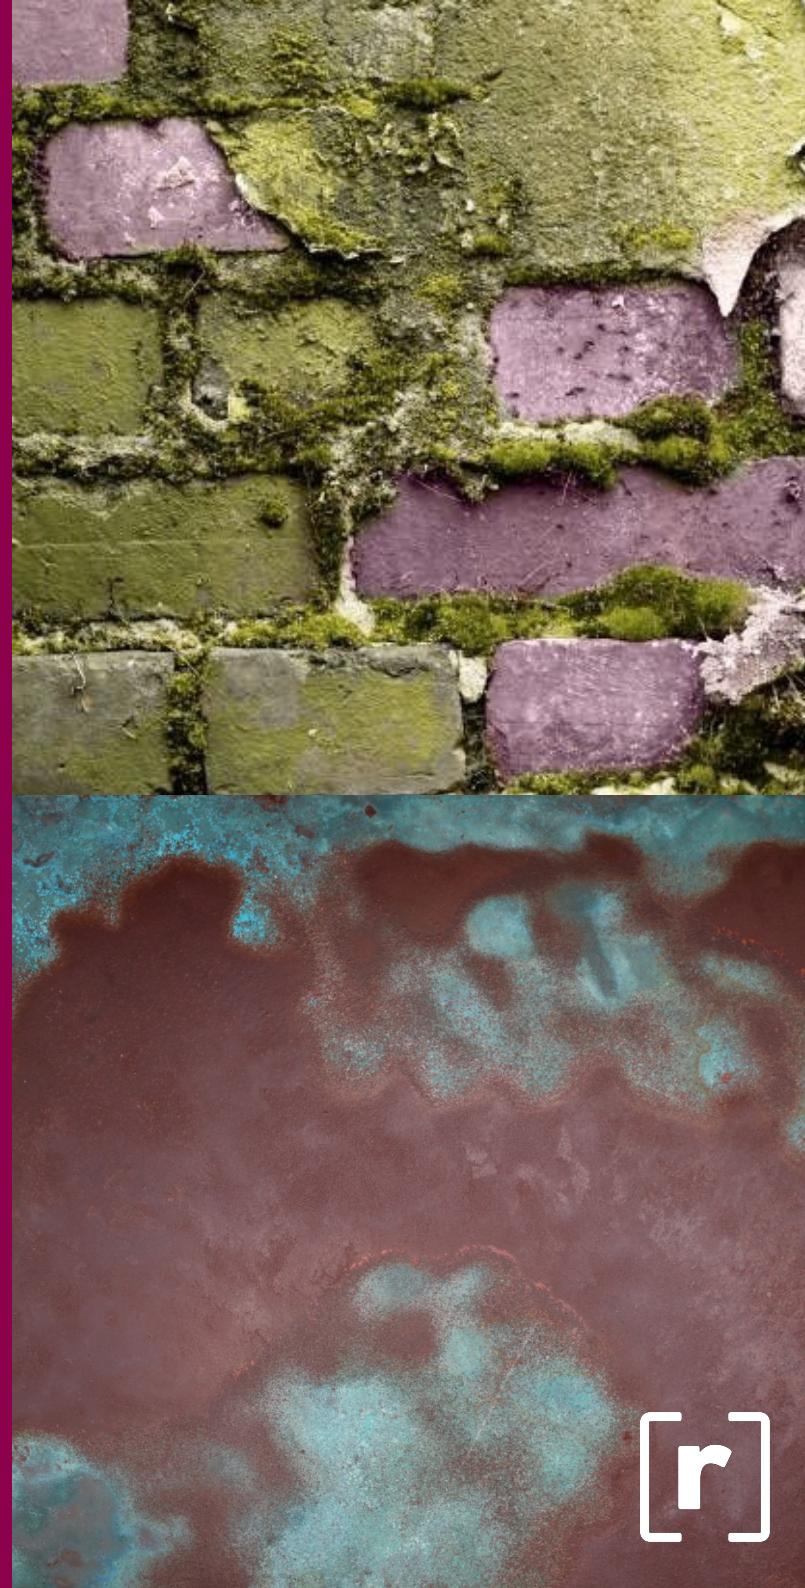

Drawing from oxidised iron and the soft patina of verdigris, this finish mirrors the meeting of strength and natural change. Its layered character encourages reflection on resilience, adaptability, and the healing beauty of transformation.

Patina Corten and Verdigris

Inspired by stone walls softened by moss and metal kissed by time, Patina Corten and Verdigris blends earthy tones with organic greens. Their surfaces encourage contemplation and acceptance, offering depth and serenity within crafted spaces.
